

Khemis Milliana University

Faculty of Law and Political Sciences

Foreign Language Assessment Exam

first year, Master's degree, specialisation: Family Law 2025/2026

Prepared by: Prof. Dr. Amrouche Ahcène

Tick the correct answer for each question.

1. What is the first step in the scientific research process?

- ☐ A) Collecting Data
- ☐ B) Analyzing Results
- ☐ C) Writing the Conclusion
- ☐ D) Identifying the Problem

2. A hypothesis is:

- ☐ A) A detailed conclusion
- ☐ B) A summary of findings
- ☐ C) A research methodology
- ☐ D) A testable statement or assumption

3. Which method involves studying existing literature?

- ☐ A) Experimental Method
- ☐ B) Survey Method
- ☐ C) Field Research
- ☐ D) Literature Review

4. The purpose of a research design is to:

- ☐ A) Collect random data
- ☐ B) Avoid writing a report
- ☐ C) Publish immediately
- ☐ D) Plan how to conduct the research

5. Quantitative research focuses on:

- ☐ A) Personal opinions
- ☐ B) Descriptive stories
- ☐ C) Case studies
- ☐ D) Numerical data and statistics

6. **Qualitative research focuses on:**
- ☐ A) Statistical analysis
 - ☐ B) Measurement of numbers
 - ☐ C) Laboratory experiments
 - ☐ D) Understanding meanings and experiences
7. **A variable that is manipulated in an experiment is called:**
- ☐ A) Dependent Variable
 - ☐ B) Control Variable
 - ☐ C) Confounding Variable
 - ☐ D) Independent Variable
8. **Sampling in research is used to:**
- ☐ A) Study every member of the population
 - ☐ B) Ignore participants
 - ☐ C) Randomly assign conclusions
 - ☐ D) Select a representative part of the population
9. **The literature review helps to:**
- ☐ A) Ignore previous research
 - ☐ B) Create new experiments only
 - ☐ C) Write conclusions directly
 - ☐ D) Understand what has already been studied
10. **Ethical considerations in research include:**
- ☐ A) Publishing without review
 - ☐ B) Ignoring participants' rights
 - ☐ C) Manipulating data
 - ☐ D) Protecting participants and data integrity
11. **The purpose of the research conclusion is to:**
- ☐ A) Introduce new topics
 - ☐ B) Avoid interpretation
 - ☐ C) Present raw data only
 - ☐ D) Summarize findings and implications
12. **Peer review in scientific research ensures:**
- ☐ A) Faster publication only
 - ☐ B) Personal opinions acceptance
 - ☐ C) Ignoring methodology
 - ☐ D) Quality and credibility of the research

good luck
